Education

2011 – 2014 **BSc, Software and Information Engineering** — [Vienna University of Technology](#)

Career

08/2017 – **Customer Engineer** — **Google Cloud Platform** — [Google](#)

- present ▪ Triage enterprise and corporate customers' most pressing challenges, validate solution hypotheses, and align relevant stakeholders (customer, partner, internal) to ensure optimal outcomes.
- Act as project- and product manager for the customer, making sure the right product gets launched the right way.
- Go deep into solution design, often involving infrastructure modernization with Kubernetes or ML projects with Apache Beam, TensorFlow, and BigQuery.

08/2014 – **Technology Solutions Professional** — **Azure** — [Microsoft](#)

- 07/2017 ▪ Drove cloud adoption for the largest and most complex companies in Austria through technical briefings, proofs of concept, architectural design sessions.
- Deep involvement across the full software lifecycle in Web, Mobile, Cross-Platform, Big Data, and IoT.
- Cooperated with strategic partners to implement successful cloud solutions.
- Combined deep technical cloud expertise with customer business context to deliver value backed by strong business cases.

05 – 08/2014 **Technical Evangelist** — **Azure** — [Microsoft](#)

- Drove strategic adoption of Microsoft Azure with the developer community.
- Created impactful technical content: demos, sample code, reference apps.

09/2013 – **Tutor** — **Fundamentals of Computer Science** — [Vienna University of Technology](#)

- 02/2014 ▪ Held lectures on programming, algorithms, design patterns.
- Created and graded course exercises.

02 – 10/2013 **Developer** — **Android** — [HaxSync](#)

- Android app ranked **28** on Google Play "top sold", over 100,000 downloads.
- Achieved 4.4/5 rating by quickly reacting to customer feedback.
- Increased sales by continuously shipping the most-requested features.
- Simplified the UI and fixed bugs, cutting support requests 50%.

07/2012 **Developer** — **Internship** — [ETM Control GmbH](#)

- Built an HTML/JavaScript mobile client for a complex SCADA system.
- Learned the company's proprietary programming language within a week.

Projects

09/2013 – **Sole Developer** — **Windows Phone** — [Weatherfrog](#)

- 02/2014
- Unique weather app, 4/5 average rating in the Windows Phone Store.
 - Integrated multiple APIs: Forecast.io, Google Places, Google Maps, Flickr.

01 – 04/2013 **University Team Project** — **Java** — [Unicloud](#)

- Java application merging multiple cloud storage providers (OneDrive, Dropbox, ...).
- Designed the technical architecture.

Expertise and Skills

Development Advanced: C#, .NET, Java

Intermediate: Python, Bash, PowerShell, HTML, CSS, JavaScript, SQL

Platforms Google Cloud Platform, Kubernetes, Microsoft Azure, Windows, Linux, Android

Dev Tools Visual Studio, IntelliJ, git, Visual Studio Online

Certifications Google Cloud Certified: Professional Data Engineer

Google Cloud Certified: Professional Cloud Architect

Microsoft Certified Solution Expert: Cloud Platform and Infrastructure

Microsoft Certified Solution Developer: Azure Solutions Architect

Microsoft Certified Professional: Developing Microsoft Azure Solutions

Microsoft Certified Professional: Implementing Microsoft Azure Infrastructure Solutions

Microsoft Certified Professional: Architecting Microsoft Azure Solutions

Languages

German native

English fluent
