

DANIEL PFELLER

CLOUD / AI LEADER · TRUSTED ADVISOR

pfeller.daniel@gmail.com · +41 79 459 85 45 · Switzerland

*10+ years leading cloud transformations and delivering ML/AI solutions for global enterprises and unicorn startups. Trusted advisor to C-level executives, impacting **\$500M+** in yearly cloud revenue. Drives revenue expansion, cost optimization, and operational efficiency at scale.*

SELECTED IMPACT

\$500M+

yearly Google Cloud revenue advised in 2024

+20%

program velocity, 80-eng coordination revamp

100K+

downloads, top-100 Android app, 4.4★

10+ yrs

cloud advisory across GCP, Azure, enterprise + startup

EXPERIENCE

Customer Engineer — Google Cloud Platform at Google

2017 – present

- Led cross-functional technical engagements integrating cloud with client requirements, delivering scalable high-performance solutions for the world's largest enterprises and high-growth unicorns. Owned projects end-to-end: requirements → architecture → deployment → support.
- Trusted advisor to decision-makers at major accounts, impacting **\$500M+** cloud revenue in 2024.
- Partnered with Google Engineering & Product Management to surface market needs and inform roadmap, directly shaping Google Cloud's strategic direction.

Technical Program Manager — Google Assistant at Google

2022

- Delivered the group's first ML model in Chrome production through a cross-functional program across two ML engineering teams.
- Revamped coordination for an 80-engineer global program, **+20%** velocity.
- Defined OKRs aligned to program objectives; monitored metrics enabling timely course corrections.
- Refocused scope onto key user journeys, sunseting lower-priority work → **+10%** user satisfaction.

Technology Solutions Professional — Azure at Microsoft

2014 – 2017

- Pivotal role in early cloud computing era — pushed frontiers of Azure adoption when the space was largely uncharted.
- Pioneered technical strategies that moved enterprises from traditional IT into scalable, cloud-based architectures.

Technical Evangelist — Azure at Microsoft

H1 2014

- Conference keynotes, technical deep dives, reference architectures, whitepapers, blog posts.

Co-Founder & Software Engineer at HaxSync (Android)

2013 – 2014

- Built Android app reaching **100K+** downloads, **top-100** paid apps, sustained 4.4★ rating.

Teaching Fellow — Fundamentals of Computer Science at Vienna University of Technology

2013

- Lectures on programming, algorithms, design patterns.

Software Engineer Intern at ETM Control GmbH

2012

- HTML/JavaScript mobile client for complex SCADA system.

SKILLS · EDUCATION · LANGUAGES

Leadership — cross-functional team leadership, leading without authority, mentoring

Program Mgmt — Agile/Scrum, planning, risk, dependency, stakeholder mgmt

Programming — Python, C#, Java

Platforms — GCP, Azure, Android

Technologies — GenAI, Vertex AI, k8s, Terraform

Certifications — 3 × Google Cloud Certified Professional · 4 × Microsoft Certified Solution Professional

Education — BSc Software & Information Engineering, Vienna University of Technology (2011 – 2014)

Languages — German (native) · English (fluent)
