10+ years leading cloud transformations and delivering ML/AI solutions for global enterprises and unicorn startups — trusted advisor to C-level executives, impacting \$500M+ in yearly cloud revenue, driven by complex problems at scale.

EXPERIENCE

2017 — present **Customer Engineer, Google Cloud Platform**

Google

- Led cross-functional engagements integrating cloud with client requirements, delivering scalable solutions for the world's largest enterprises and high-growth unicorns. Ownership end-to-end: requirements through deployment and ongoing support.
- Trusted advisor to decision-makers at major accounts; impacted \$500M+ cloud revenue in 2024.
- Partnered with Google Engineering and Product Management to surface market needs and shape roadmap direction.

2022 **Technical Program Manager, Google Assistant**

Google

- Delivered the group's first ML model in Chrome production through a cross-functional program across two ML engineering teams.
- Revamped coordination for an 80-engineer global program; project velocity +20%.
- Defined OKRs and monitored performance, enabling timely course corrections.
- Refocused scope onto key user journeys; user satisfaction +10%.

2014 — 2017 **Technology Solutions Professional, Azure**

Microsoft

- Pivotal role in early cloud computing, pushing Azure adoption when the space was largely uncharted.
- Pioneered technical strategies that moved enterprises from traditional IT into scalable, cloud-based architectures.

H1 2014 **Technical Evangelist, Azure**

Microsoft

- Conference keynotes, technical deep dives, reference architectures, whitepapers, blog posts.

2013 — 2014 **Co-Founder and Software Engineer**

HaxSync — Android

- Android application with 100,000+ downloads, top-100 paid apps, 4.4 user rating.

2013 **Teaching Fellow, Fundamentals of Computer Science**

Vienna University of Technology

- Lectures on programming, algorithms, design patterns.

2012 **Software Engineer Intern**

ETM Control GmbH

- HTML/JavaScript mobile client for a complex supervisory control system.

E D U C A T I O N

2011 — 2014 **BSc, Software and Information Engineering**

Vienna University of Technology
